

COVID-19 - Create partition walls

Social Distancing with Stadur lightweight foam boards

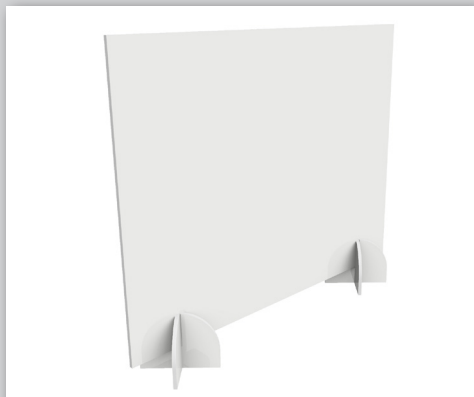

STADUR VISCOM SIGN SF or **EASYPRINT** lightweight foam boards are perfectly suited for the construction of rigid and lightweight partition walls. These partition walls with variable sizes can be subsequently processed, printed and further cut to size according to your wishes.

Due to the high demand for a finished system solution, we would like to use this example to show you how easy it is to produce and offer partition walls from our lightweight foam boards as a set with matching feet.

Create partition walls very easily and sell them under the motto

Assemble the feet ► insert the partition wall ► finished in record time.

Example partition wall set - Floor

e.g. from a standard panel 2030 x 3050 mm

Format	Thickness	Minimum purchase
2000 x 1000 mm	19 mm	3 pieces
2000 x 1500 mm	19 mm	2 pieces
3000 x 1000 mm	19 mm	2 pieces

matching stand: 400 x 300 mm (cut separately)

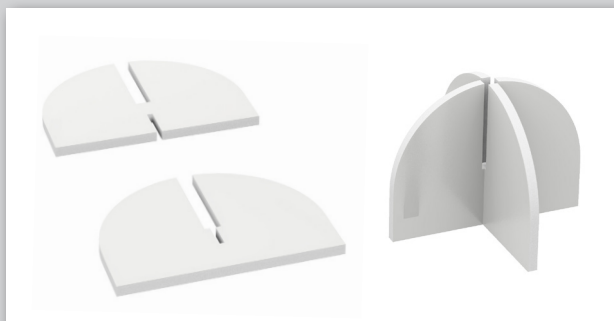

Example partition wall set - Table

e.g. from a standard panel 2030 x 3050 mm

Format	Thickness	Minimum purchase
1000 x 650 mm	10 mm	9 pieces

3000 x 650 mm	10 mm	3 pieces

matching stand: 200 x 150 mm (cut separately)

Example stand

Advantages of your clients

- stable
- very lightweight
- easy cleaning
- effortless assembly
- weatherproof
- hard-wearing surface

COVID-19 - Partition wall accessories

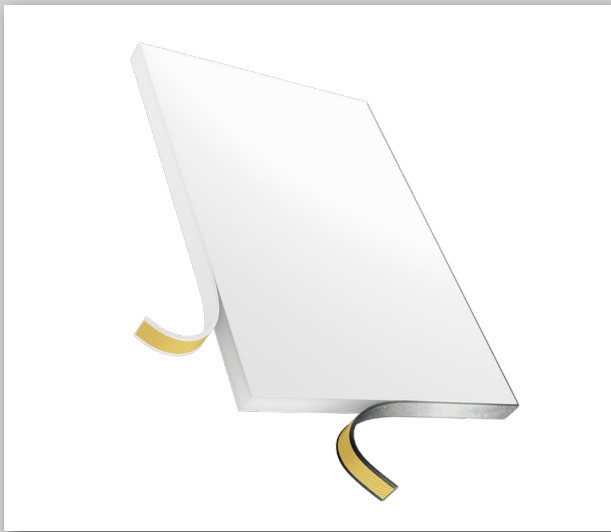

Self-adhesive edge protection profile

The Stadur edge protection profile **VISCOM EDGE** is equipped with a self-adhesive film and allows you to quickly enhance our partition walls.

The flexible profile is wipeable and can be processed directly from the roll to **seal the open panel edges**. Works even for square and round shapes.

VISCOM EDGE

Stock colours: white / black / silver metallic

Thicknesses: 10 mm / 19 mm

Minimum purchase: 1 carton (50 metres)

Your Advantages

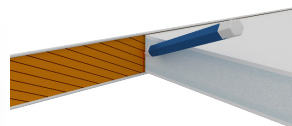

- flexible material
- very easy handling
- cuttable with scissors / cutter
- direct and immediate adhesive contact
- weatherproof
- easy cleaning
- by cutting in notches you can even cover 90° bends in one piece and without tension.

Example of processing in 4 simple steps

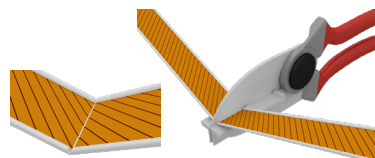

Roll off...

...mark corners...

...cut notches...

... and attach!
